## Go to the Local Paper.

An observing exchange enumerates a few things wherein the local paper proves itself useful as well as ornamental. It says: "When a pastor wants an announcement made public he goes to the local paper. When the ladies want a notice of a church supper published they go to the local paper. When a secret society gives a banquet it goes to the local paper for a write up. When a political party issues a call or holds a meeting it calls on the local paper for publicity. When an obituary of some loved one gone before is wanted put in print the local paper is called on. Society in general turns to the local paper for a written detail of all its movements. In fact, a thousand other things are expected of a local paper, and yet we find many citizens so selfish that they will hesitate and often refuse to spend a small mite to support it."

## AFTER PRINCE CONSORT.

His Creditors to Form a Syndicate to Negotiate Paper.

London, April 22.—Special dispatches received here from Paris report trouble at the castle of Hel Lou over the bachelor debts of Prince Henry, the husband of Queen Wilhelmina. It is said that shortly prior to his marriage he promised his creditors in Berlin and Frankfurt to pay one-third of his debts within a month of the wedding, but the money has not been forthcoming and the money lenders formally applied to Queen Wilhelmina. The latter declares her husband must pay his own debts out of the allowance made him by the state. It is now said that the creditors have formed a syndicate and purpose to negotiate the prince consort's paper on the Amsterdam bourse. Queen Wilhelmina is reported to be very angry.

## High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs; builds up the whole system, and fits men and women for these high pressure days.
